

Design and Artwork

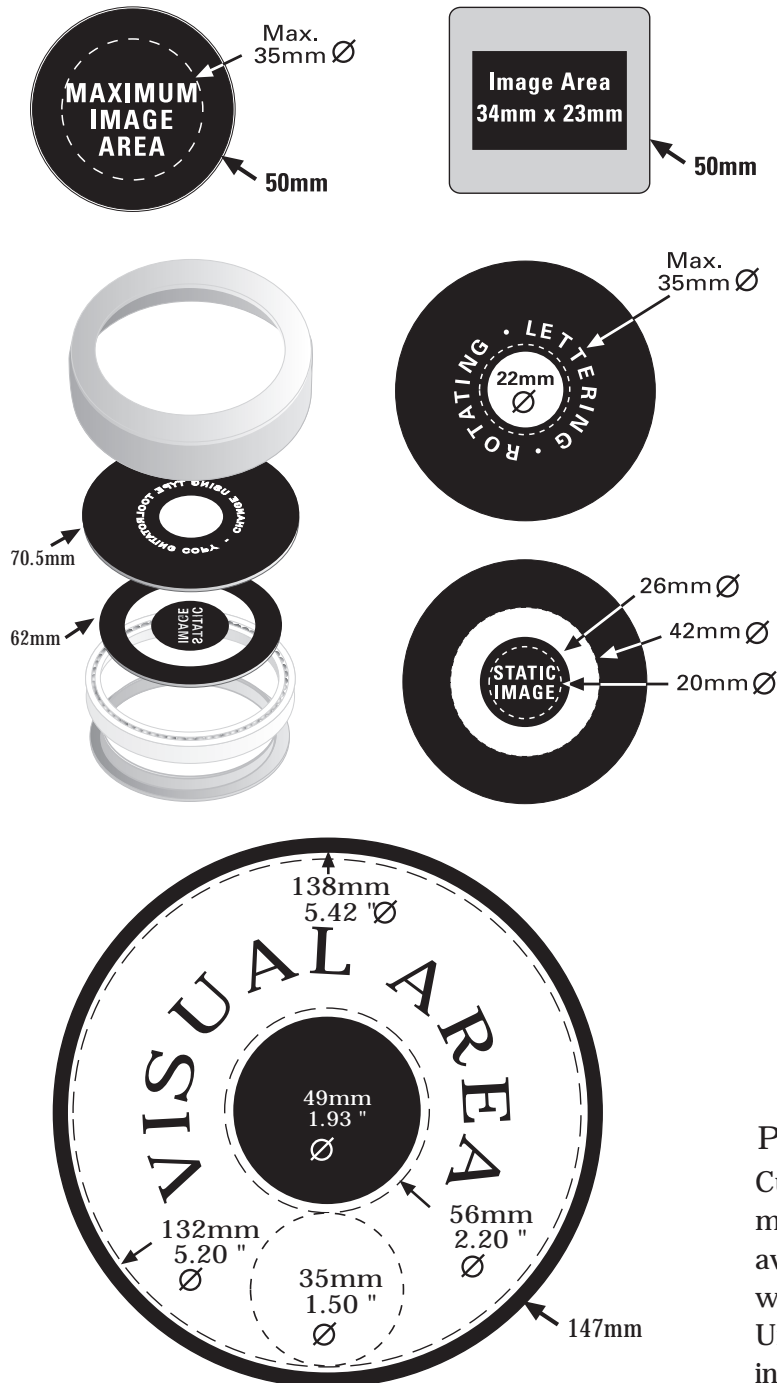

Artwork should be designed to create the best possible projected image in the ambient lighting conditions using your chosen Effects Projector. If you have ideas but no means to produce finished artwork we can prepare this for you at: £100.00 (+ VAT) per hour.

If you want to produce your own artwork: We use film positives or generate from Apple Mac.

For solid or line logos with (or without type) use: Freehand up to version 9.0 (convert type to paths) or; Illustrator up to version 9.0 (create outlines of type) - if e-mailing it is best to export or save as a 'pdf'. Quark up to version 4 or Pagemaker up to version 6.5 files - FONTS in these programmes must be supplied.

For photographic images use: Photoshop up to version 5.0, TIFF, JPG or BMP files, must be at a high resolution (1200dpi minimum) and may need reworking. Such work is charged at £60.00 per hour.

Digital artwork can be sent on Floppy disc; Syquest; Zip; CDor e-mailed to: graphics@optikinetics.com (if compression is necessary, use 'Zip' please avoid 'Stuffit').

MAX VISUAL AREA: 35mm

50mm Gobos & Slides

50mm gobos maximum image area 35mm Ø. Right reading for Silk Screen & CIBA; reversed for Chrome etching.

52mm gobos (2.1mm thick) maximum image area 35mm Ø. central black circular dot required, min. 1.7mm dia. Right reading for Chrome etching.

6" Effect Wheels

Reverse reading for Silk Screen or Ilfochrome only.

PRODUCTION and DELIVERY

Custom gobos can be produced very quickly, in a matter of a few days but, it is infinitely better, to avoid disappointment, to allow between 5 and 10 working days for production and delivery within the United Kingdom or 10 - 15 days for anywhere else in the world.
